2023 Education and Outreach Grant Application

The mission of Breast Cancer Alliance is to improve survival rates and quality of life for those impacted by breast cancer through better prevention, early detection, treatment and cure. To promote these goals, we invest in innovative research, breast surgery fellowships, regional education, dignified support and screening for the underserved.

Four types of grants are offered annually: Exceptional Project Grants, Young Investigator Grants, Breast Surgery Fellowships and Education and Outreach Grants. We invite clinical doctors and research scientists whose primary focus is breast cancer research to apply for either the Exceptional Project or Young Investigator Grant. Society of Surgical Oncology accredited institutions may submit requests for funding for fellowships if they are in New York, New Jersey or Connecticut. We invite Directors of programs that are directly related to breast cancer services to apply for the Education and Outreach Grant.

One of the distinguishing features of Breast Cancer Alliance is its commitment to conduct site visits to grant recipients during the grant period.

Education and Outreach Grants:

Breast Cancer Alliance offers grants to support programs directly related to outreach and case managerial breast cancer services, including education, counseling, biopsies and mammograms for the underserved. The programs must be located in Connecticut and/or in Westchester County, New York.
